Ramanujam, Reader in English, Dr.G.Sambasiva Rao, Reader in Telugu, Dr.Ch. Sreeramachandra Murthy, Lecturer in Telugu.

RESEARCH PROJECTS UNDERTAKEN BY STUDENTS

The third year group project is unique to Andhra Loyola College. They undertake a one-year group project under their respective supervisors. This year, all the group projects of the Electronic students were publicly exhibited on February 8th and 9th in the seminar hall. It included the following items: Security Devices, Multi Instrument Remote, Automatic Rain Measuring Instrument, etc. Hydroponics... a technique to grow plants in a soilless medium was the project of the botany students. And the students were excited to see the plants growing in the tubes better than in the soil. In their group project, the students of Special English conducted a survey on "teaching, learning and evaluation" in four autonomous colleges of the city and their findings have given us lots of insights regarding our existing standards and
